

# PEDNOLVA BEACH

## or Lambeth Walk Beach (St.Ives)

Although joined to Harbour Beach at low water, it is regarded locally as having its own identity. It takes its name from the popular pedestrian route from the town to [Porthminster Beach](#) called Pednolva Walk, locally called Lambeth Walk, named after the popular dance tune. It has an easterly aspect.

Lambeth Walk Beach looking towards Western Pier & the Harbour

**TR26 1LP** - Details of car parking are shown in the overview for [St.Ives](#). Access to the beach is from steps on Lambeth Walk or at low water from the [Harbour Beach](#) around Western Pier.

A small beach that is arguably the least attractive of all the beaches in St.Ives but has stunning views across the Bay and the Harbour. It is a mixture of the famous St.Ives sand with dark dolerite stones

At low tide looking towards Pednolva Point from Westcott's Quay

and boulders. There is little or no beach at high water but at low water it joins the Harbour and Porthminster Beach around Pednolva Point.

Views out across the Bay and the lighthouse on Smeaton's Pier

There is safety/rescue equipment located at Westcott's Quay on Lambeth Walk above the Beach.

Details are shown in the overview for [St.Ives](#).

Dogs are permitted all year but it needs to be remembered that there are restrictions at both adjoining beaches at (at low water).

Toilets are at the end of the walk immediately next to the Lifeboat Station.

There are some cafes and beach shops along the Walk and restaurants and pubs less than 120m away along Wharf Road beside the Harbour.

Location – Part of OS Map 102

Water quality is generally good but the stream crossing the beach at times is questionable. It is never a crowded beach but somewhat overlooked.
